

**2nd National Symposium on
System of Rice Intensification (SRI) in India – Present Status and Future Prospects
October 3-5, 2007**

Venue: SIPARD, Agartala, TRIPURA

Guidelines for Paper Presentations

- The time allotted for paper presentation is 15 minutes only (10 minutes presentation with 5 minutes of discussion).
- Hence, it is advised to have 10-12 slides only with important notes. Each slide should have messages that can be explained in one minute.
- Strictly avoid general principles and practices of SRI in your presentation.
- Focus more on the results of your studies, experiences and adoption of SRI, as may be the case.
- Leave/allot some time for discussion or few questions from the audience while planning time for your presentation.
- Please send the soft copy of the presentation in advance to the Organizers to info@sri-india.net for evaluation of the presentation latest by 29th September 2007. Spot handing over is discouraged strictly in view of logistical reasons.
- There are awards for the best three papers. Both content of the paper as well as presentation in the session will be considered for these awards. An independent committee will evaluate and select the authors/presenters for the awards.
