

Welcome to the world of Tilda

**PROMOTION OF SRI
WITH BASMATI
RICE IN HARYANA**

Farmers Advisory Cell (FACE) at a Glance

- Established in 1986
- Located in Kurukshetra, Haryana
- Also works through Mandies
- Spoken language is Hindi with local dialect

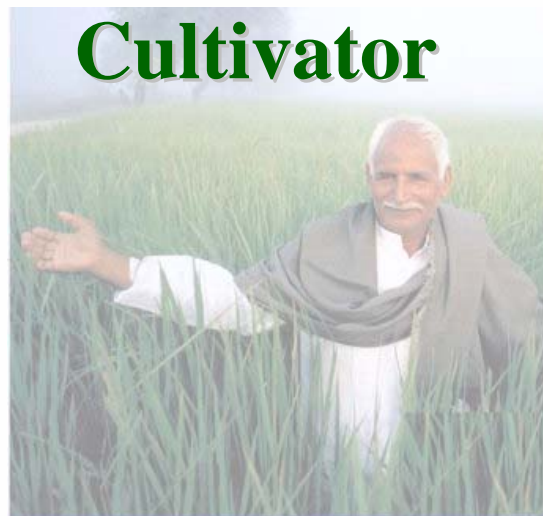

F O S T E R

(Field Of Systematic Trials & Experiments on Rice)

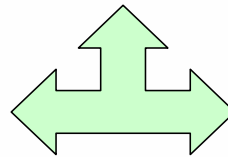

Established : 2000

Objective : Basmati cultivation – a profitable enterprise

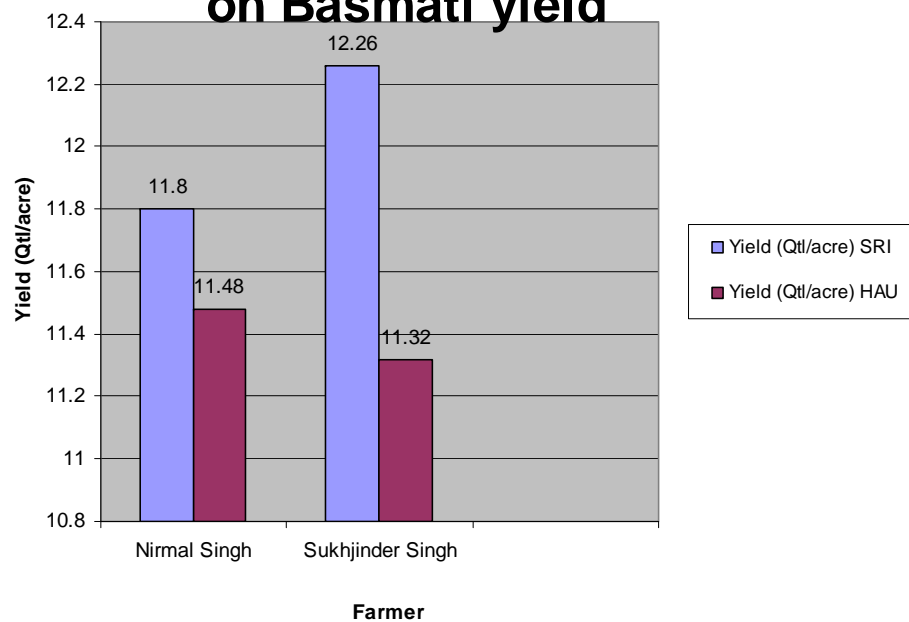

Philosophy : A total approach

FOSTER

Effect of SRI & HAU practice on Basmati yield

SRI in Basmati - Haryana

Increased farm yield

- High tillering
- More filled grains/panicle
- Better grain weight

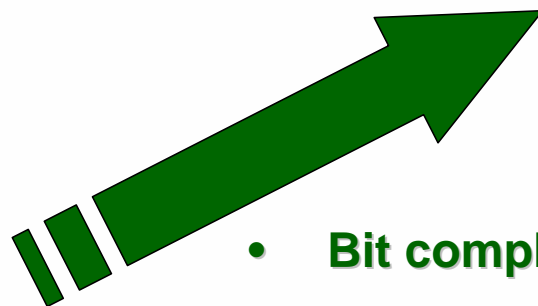

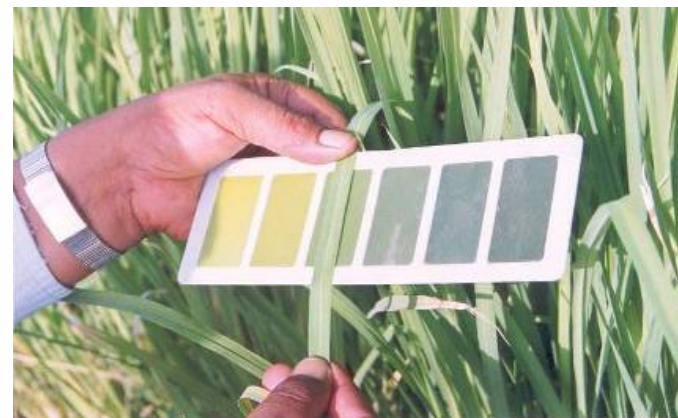

Improved Basmati Quality

- Improved head rice recovery
- Reducing chalkiness
- Less green grains
- Fewer damaged & discolored grains
- Reduced immature grains
- Better shining

Constraints on SRI

Haryana Farmers' view

- Bit complicated
- Not cheap
- Labor-intensive
- Requires continuous attention
- Will need strong extension for farmers' training

SRI has tremendous potential for small farmers

A blue plate with a bowl of rice and vegetables, and a white stick of food. The rice is white and topped with green peas, red and yellow vegetables. The white stick is a traditional Indian snack, possibly a puri or a similar fried item. The background is a light, textured surface.

Thank you
